Old Town Concept Plan

5th Street Mixed Use District

The City of Sachse and the Sachse Economic Development Corporation own seven acres within the 5th Street District in Old Town. It is located at the well-traveled intersection of SH 78 and 5th St. where over 49K vehicles pass per day. Adjacent to new 5th Street improvements and traffic circle, this district will be developed to create a "downtown" walkable environment with destination uses such as niche restaurants, urban living, and other lifestyle uses. The area will create a new downtown for Sachse that builds on the unique character of the neighborhood and creates a gathering place for the community.

The Sachse Economic Development team is searching for the right development partners and recruiting tenants now. Contact us at EconomicDevelopment@CityofSachse.com to discuss how the opportunity will work for you.
